ADJUDICATOR'S REMARKS

Opening is a touch brisk and you lose some clarity as a result. [C] hasn't settled and there are intonation issues though [D] [F] is gaining speed and it feels like you haven't quite got this under control. A scratch off the tempo would allow you to settle - it unfortunately all feels a bit frantic.

Grave - ensemble is untidy - particularly at phrase end. [B] is effective - this is much better. [C] sets up nicely - Eup is well balanced but feels very nervous + breathless. Ensemble is fragile [E] → [H] H settles and [J] is good - close not quite tidy

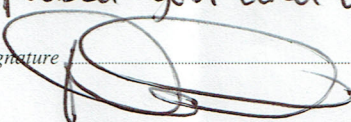

Brioso - begins well - nice Flugal! 2 b4 [C] is untidy and you begin to race again [D] → [J] is better but lacks a little 'punch'. [L] is nicely balanced but a bit quick - Euph is v. good but needs space to shape the music. You settle and deliver a secure ending.

A performance with much to commend. Selection of tempo sometimes unpicked you and ultimately detracted.

ADJUDICATOR'S REMARKS

①. A very brisk tempo to start with that tends to rush at times in the opening. Nicely played at ② + contrast. Shy Sop at ① but merged it. Really increasing the tempo before ⑤ which means loose ensemble later. Basses lack clarity before ⑫. Nice full tone to end.

②. Slight spread in first rate but more crease + decrease required to create drama. Trombone together but intonation issues at ③. Good atmosphere created at ④ although the Sop is still shy + needs to project more + show off. Saxs played though, well done. Not always clear at ⑥ in cornets. More depth of sound required through ④. Nice ending.

③. Well controlled tempo + opening + good Horns balanced. Nice style at ③ for Tubilute. Just now beginning to rush from ① + a little untidy into ⑥ + the ⑦ which needs to be slightly slower to be precise some weight. A confidently played Euph at ④. Well managed cad into ⑫ and maintained to the finale. Well done, there are some good moments in this and enjoyable to listen to. Thank You.
