Walking Heroes / Enthusiastic tempo! A real challenge for the band. Nice from at (A) and cuts to follow. Extreme speed to recap. Some good perc playing noted.

Over the Rainbow / Insecure start from soloist and band.

It settles down somewhat at (A) Some nice phrasing from the soloist, but don't force the tone. Band accomps are quite heavy.

Batman / Intonation issues to start. B.D. too loud.

(13) 'why so fast', so much detail is lost. Serious balance issues detract from the overall picture.

Evening Hymn + Sunset / Some beautiful sounds here.

be careful not to over-phrase. (B) - (C) upper cuts/sop intonation problems - The Last-Post sounds a little hard.

Olympic Truce / Quite fast and very loud for single forte! The maestro needs to have more breadth and quality tone. - Stray close

Although much of your programme was exciting.

I don't think I heard the full potential of the band today. So much of the music was just fast and loud.

To become more successful you need to develop some of the higher-order skills.
